OBJECTIVE

Software developer working across backend engineering, data engineering, and system design to build reliable, scalable, and data-driven systems. Interested in how modern software is structured beneath the surface and passionate about turning complex problems into clean, maintainable, real-world solutions.

WORK EXPERIENCE

Brahmabyte Lab Pvt Ltd

Aug 2025 - Dec 2025

Backend Intern

- Built and maintained RESTful APIs using FastAPI (Python) with PostgreSQL as the backend database, following clean code principles and modular design.
- Developed and delivered 10+ third-party platform integrations (Discord, Facebook, Slack, Telegram, Zoho, Pipedrive) including authentication flows, message handling, and data management.
- Refactored the entire integration codebase by introducing generic shared functions and a standard structure, reducing code duplication across all platforms and improving maintainability.

SKILLS

Technical Skills:

- Languages: Python, Java, SQL, JavaScript, C#
- Backend: Django, FastAPI, ASP.NET Core
- Frontend: React.js, Tailwind CSS, Bootstrap
- Databases: Oracle, MySQL, PostgreSQL, SQLite
- Data & AI: NumPy, Pandas, Scikit-Learn, Matplotlib, Seaborn
- Tools: Git, GitHub, Linux, Docker, AWS EC2, VS Code, Postman, Jupyter Notebook

Soft Skills:

Team Collaboration, Time Management, Problem Solving, Adaptability, Strong Attention to Detail, Willingness to Learn, Communication

PROJECTS

GearUp - Vehicle Parts Management System | [C#](#), [ASP.NET Core](#), [React.js](#), [PostgreSQL](#) [🔗](#)

- Led a 5-member team to build a full-stack multi-role Vehicle Parts Management System following Clean Architecture, including inventory, sales invoicing, loyalty discounts, and automated SMTP email notifications.
- Built a secure RESTful API with ASP.NET Core Identity, JWT authentication, role-based access control, and performance optimization including In-Memory Caching, pagination, and Rate Limiting Middleware.
- Deployed to AWS EC2 using Docker and Docker Compose, configured nginx as a reverse proxy, and secured with HTTPS via Certbot and Let's Encrypt SSL on a custom DuckDNS domain.

One - Human Resource Management System | [Python, Django, PostgreSQL](#)

- Designed and built a scalable full-stack web application end-to-end from system architecture and database design to feature development and testing.
- Implemented complex business logic for automated payroll calculation handling attendance, leave deductions, tax, and PDF/CSV report generation.
- Built an AI-powered CV match scoring module using SBERT semantic similarity, Applicant Tracking System with a public-facing job portal and geofencing based attendance marking with GPS check-in/out.
- Developed an HR analytics dashboard with interactive data visualizations surfacing workforce trends and employee metrics.

Marketplace/E-Commerce Website | [Django, Python, PostgreSQL](#)

- Developed an e-commerce platform using Django, applying core concepts such as the MVT architecture, model creation, URL routing, views, and template rendering with static and media file handling.
- Integrated features like admin panel configuration, base template inheritance, image upload and display and dynamic data display using Django's template engine.

Library Management System | [Java, MySQL](#)

- Implemented full CRUD functionality with secure authentication and role-based access, and session management following the MVC architecture.
- Designed and executed complete backend logic using Java Servlets and JSP with a normalized MySQL database.

Cinema Management System | [Oracle SQL, ASP.NET](#)

- Designed a fully normalized relational database (UNF to 3NF) with proper PK/FK constraints and referential integrity using Oracle SQL DDL scripts.
- Implemented CRUD operations and complex analytical SQL queries like user booking history, theatre schedule filtering, and hall occupancy percentage calculations.
- Created forms for user interaction and data management.

EDUCATION

BSc (Hons) Computing

2023 - 2026

Islington College

London Metropolitan University

Kamal Marg, Kamalpokhari, Kathmandu

SLC (+2)

2017 - 2019

Einstein Academy

National Examination Board Mahalaxmasthan, Lalitpur

SEE

2017

United School

National Examination Board Satdobato, Lalitpur
