WORK EXPERIENCE

The Great Emails
Klaviyo Technician

- Build and maintain automated email flows in Klaviyo and Omnisend for e-com brands, including welcome series, abandoned cart, browse abandonment, post-purchase, and win-back.
- Integrate third-party apps (reviews, loyalty, subscriptions) with Klaviyo to trigger custom flows from customer behavior and create behavior-based segments for targeted campaigns.
- Set up event tracking and performance reporting to monitor flow and campaign results, troubleshooting Shopify–Klaviyo data and tracking issues.

Brahmabyte Lab Pvt Ltd Jun 2025 - Dec 2025
Backend Developer

- Developed and maintained RESTful APIs for a microservices based SaaS application using FastAPI and PostgreSQL, following clean code practices and modular architecture.
- Integrated 10+ third-party APIs and webhook endpoints with OAuth authentication, token management, payload verification, real-time event processing, and data synchronization.
- Refactored the entire integration codebase by introducing generic shared functions and a standard structure, reducing code duplication by 40% and improving maintainability across all platforms.

SKILLS

- **Languages:** Python, SQL, JavaScript, C#, Java
- **Backend:** FastAPI, Django, ASP.NET Core, REST APIs, OAuth, Webhooks
- **Frontend:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- **Databases:** PostgreSQL, MySQL, Oracle
- **Tools:** GitHub, Postman, VS Code, Figma, Docker, Linux, AWS
- **Marketing Tech:** Klaviyo, Omnisend, Shopify, n8n

PROJECTS

Human Resource Management System | Python, Django, PostgreSQL

- Designed and developed a full-stack HR management system covering employee management, attendance, leave, payroll, recruitment, and reporting.
- Designed the PostgreSQL database and implemented business logic for payroll calculations, attendance processing, leave deductions, and employee management.
- Implemented role-based functionality and a public-facing recruitment portal with an applicant tracking system.
- Built an HR analytics dashboard with interactive visualizations and generated PDF/CSV reports from application data.
- Developed AI-based CV matching using SBERT and GPS-based attendance check-in/out.

Marketplace/E-Commerce | React.js, FastAPI, PostgreSQL

- Designed and developed RESTful APIs for authentication, product management, order management, media uploads, and user operations following a layered architecture.
- Implemented JWT-based authentication and authorization with role-based access control (buyer/seller/admin).
- Integrated Cloudinary for media storage and connected the service with the backend API and React frontend.

Customer Churn Prediction | Python, Scikit-learn, XGBoost, TensorFlow, Pandas, Seaborn

- Built and compared 4 supervised ML classification models like Decision Tree, Random Forest, XGBoost, and a Neural Network (ANN) to predict customer churn on a 7,000-record telecom dataset.
- Designed and executed a complete end-to-end ML pipeline including data cleaning, feature engineering, one-hot encoding, feature scaling, class imbalance handling, and train-test split.
- Evaluated models using accuracy, precision, recall, F1-score, ROC-AUC, and confusion matrices where Random Forest and XGBoost achieved 81% accuracy with 0.89 AUC.

Vehicle Parts Management System | C#, ASP.NET Core, React.js, PostgreSQL

- Led a 5-member team to build a full-stack multi-role system following Clean Architecture, covering inventory, sales invoicing, loyalty discounts, and automated SMTP email notifications.
- Built a secure RESTful API with ASP.NET Core Identity, JWT authentication, role-based access control, and performance optimization including In-Memory Caching, pagination, and Rate Limiting Middleware.
- Deployed backend services to AWS EC2 using Docker, Docker Compose, Nginx, and HTTPS with Let's Encrypt.

EDUCATION

BSc (Hons) Computing 2023 – May 2026
Islington College
London Metropolitan University
Kamal Marg, Kamalpokhari, Kathmandu

SLC (+2) 2017 - 2019
Einstein Academy
National Examination Board Mahalaxmisthan, Lalitpur

SEE 2017
United School
National Examination Board Satdobato, Lalitpur

TRAINING AND CERTIFICATIONS

- AWS Academy Data Engineering (Amazon Web Services)
- AWS Academy Cloud Foundations (Amazon Web Services)
- AWS Academy Machine Learning Foundations (Amazon Web Services)
- AWS Academy Machine Learning for Natural Language Processing (Amazon Web Services)

- Develop Scalable and Dynamic Websites using Django Framework Certificate (Islington College)
- Learning Data Analytics: 1 Foundations (LinkedIn)
- Python Essential Training (LinkedIn)
- Programming Foundations: Beyond the Fundamentals (LinkedIn)
